## *Certification*

I certify that the below listed products meet or exceed the Chem-Dry® "Green Certified" Environmental Standards listed below for reduced human, and aquatic toxicity and reduced air pollution potential.

- |                 |                      |                               |
|-----------------|----------------------|-------------------------------|
| ▶ Natural III-A | ▶ Stain Extinguisher | ▶ Upholstery Rinse            |
| ▶ Natural III-B | ▶ Spot Remover       | ▶ Upholstery Wet/Foam Cleaner |
| ▶ Natural IV    | ▶ Pet Odor Remover   | ▶ Carpet Deodorizer           |

## CHEM-DRY ENVIRONMENTAL STANDARDS

### HEALTH, TOXICITY AND SAFETY

Oral toxicity	LD <sub>50</sub> >5000 mg/kg of body weight
Dermal toxicity	LD <sub>50</sub> >5000 mg/kg of body weight
Inhalation toxicity	LC <sub>50</sub> >20 mg/L or 20 ppm
Carcinogenicity	Products will not be recognized as a carcinogen or be listed by IARC, NTP, or CA Prop 65.

### PROTECTION OF AQUATIC LIFE

Aquatic toxicity	L/E/IC <sub>50</sub> =1-10 ppm then biodegradation must occur within a 10 day window
Aquatic toxicity	L/E/IC <sub>50</sub> =10-100 ppm then biodegradation must occur within a 28 day window
Aquatic toxicity	L/E/IC <sub>50</sub> >100 ppm then biodegradation need not occur within 28 days if no products of concern and half-life is <180 days. Note: If product is an aquatic toxicant, then it must biodegrade rapidly and not be bioaccumulative.
Alkylphenol ethoxylates	No product will contain alkylphenol ethoxylates because these materials may be harmful to aquatic life.
Inorganic Phosphates	No product will contain inorganic phosphates because these materials may be harmful to aquatic life.

### SAFETY FOR MATERIALS CONTACTED

pH requirement	The pH of the use solution of the product will be between 3 - 10.
----------------	---

### CLEAN AIR REQUIREMENTS

VOC	The use solution must contain less than 100g/L VOC (Volatile Organic Compounds).
